T -arc was founded by Kent Wright in 1999 in Austin, Texas. Exercising our spiritual and scientific background during a case gives our clients a distinct advantage. We approach all cases uniquely, as no two are ever alike. Our focus is always to simply find the truth.

T -arc never charges for its services. We do accept donations, which help offset operating expenses. We ask prospective clients to reserve any potential gift of funds until after an investigation is complete. No investigator associated with our group will ever approach a client for money. If someone does, please contact the founder.
